

Surface Retarders

Description

Grace Construction Products Surface Retarders offer unmatched reliability and control for exposed aggregate finishes. The beauty and durability of this high quality finish can be seen in landmarks worldwide: the grounds of the U.S. Capitol; Yamoussoukro Basilica, Africa; and the new European Parliament to name a few.

PIERI S.A., a French division of W. R. Grace & Co.-Conn., brings thirty years experience in the surface retarder market, creating a range of products with an unprecedented level of control for depth-of-etch. This allows a uniquely controllable selection of surface finishes to add beauty to architectural concrete.

With over 60 years of expertise in the field of cement and concrete technology, Grace Construction Products has been serving the needs of the international construction industry with products that improve strength and durability. The Grace combination of innovative products, sophisticated research and development, technical service and support at the jobsite deliver added value that is unmatched in the industry.
